

WHAT IS HOME HEALTH CARE?

Home health involves a range of healthcare services that can be provided wherever home may be. Also known as 'skilled care,' home healthcare is designed to help you gain independence and remain safe at home as an active community member.

People turn to homecare for help with:

- Transitioning from a hospital or nursing facility, to remain stable and stay at home
- Managing chronic conditions like diabetes, CHF, or COPD
- Rehab after joint replacement or other surgery
- Adapting to new mobility challenges, and home safety and falling hazards
- Caregiver support and strategies for living with cognitive decline

MEDICARE COVERAGE

Home healthcare is covered 100% for eligible Medicare beneficiaries. Call a Home Care Specialist today to find out if you qualify.

(866)902-4000

IS HOME HEALTH CARE RIGHT FOR ME?

If any of these sounds familiar, you might benefit from home healthcare:

- ✓ New diagnosis, or recent difficulty with a chronic illness
- ✓ Trouble completing routine tasks for disease management
- ✓ New medications, or juggling 3 or more medications
- ✓ Recent fall, a close call, or fear of falling
- ✓ Feeling weaker than before, or less able to do daily tasks
- ✓ Pain that interferes with daily activities
- ✓ Difficult or not possible to leave the house

A FULL-CONTINUUM PROVIDER

Residential Home Health offers in-home nursing and therapy services as ordered by patients' physicians.

Residential Palliative Care addresses the physical, psychosocial, and spiritual needs of patients and families.

Residential Hospice provides expert medical care, pain management, and emotional and spiritual support.

MAKING THE RIGHT CHOICE

Residential Home Health is a nationally recognized market leader in home nursing and therapy services.

If you are considering other providers, make sure your choice has all the advantages to get you the best possible care.

Do they have the Residential difference?

- Accredited and recognized within the industry?
- Hiring their own nurses and therapists instead of contract workers?
- Able to start your care quickly?
- Scheduling patient visits 365 days a year?
- Working with your current doctors to give you consistent care?
- Available 24/7 to answer your questions?
- Emergency-ready at the touch of a button?
- Ready with additional services — like pain and symptom management or hospice support — if your care needs should change?
- Addressing your specific health challenges with proven programs?
- Monitoring your vital signs with 'telehealth' technology?
- Has dedicated Transitional Nurse Liaisons to help you make a smooth transition home?
- Do they offer an exclusive mobile app with visit reminders and pictures of who will be visiting your home?

MEET RESIDENTIAL HOME HEALTH’S CARE TEAM*

NURSES

Evaluate, educate, coordinate and communicate between care providers, the care team, patients and their families.

PHYSICAL THERAPISTS

Lead exercises that help build strength and improve balance for greater safety and independence at home.

SPEECH THERAPISTS

Assist with motor speech disorders, swallowing difficulty and challenges with language and cognition.

OCCUPATIONAL THERAPISTS

Teach personalized adaptive techniques for performing daily activities.

MEDICAL SOCIAL WORKERS

Meet with patients and families to understand and address their personal needs at home.

HOME HEALTH AIDES

Assist the patient in the activities of daily living and provide basic routine care.

TRANSITIONAL NURSE LIASONS

Help safely transition patients home from the hospital by completing documentation, providing education, communicating with the physician office, and ordering supplies and equipment.

JOURNEY COUNSELORS

Provide a neutral patient advocacy service that empowers and educates patients on their care options throughout the continuum.

NURSE PRACTITIONERS

Consult on pain and symptom management and provide advanced medication management.
